1502-1504 S. MAIN ST.**A NEW LAW IS NO GOOD****Bill to Cover Defects Will be Hurried Through.**(Special Correspondence.)  
Columbus, O., April 24.—Although the session of the seventy-fifth General Assembly has not yet closed, the Supreme Court has already knocked out one of its newly made laws. This rapid action was taken on the new engineer's license law. The case was brought from Butler county and sought to test the validity of the old law. It is held by the court that the law is invalid since it does not establish a statutory standard for the qualifications of engineers who are to be examined. This would of course apply to all State examining boards. It is understood that a bill will be introduced at once to cover these defects and rushed through the assembly before the adjournment.**Wields A Sharp Ax.**

Millions marvel at the multitude of maladies cut off by Dr. King's New Life Pills—the most distressing too. Stomach, Liver and Bowel Troubles, Dyspepsia, Loss of Appetite, Jaundice, Biliousness, Fever, Malaria, all fall before these wonder workers. At C. B. Harper &amp; Co.'s drug store.

**Pneumonia Is Robbed of Its Terrors**

By Foley's Honey and Tar. It stops the racking cough and heals and strengthens the lungs. If taken in time it will prevent an attack of pneumonia. Refuse substitutes. J. M. Laffer, J. Lamparter &amp; Co., A. Warner.

**A Boy's Fall.**

Irvine, the 8-year old son of Mr. R. H. Glindie, of 132 Aetna street, fell down a flight of stairs at Crosby school Wednesday and sustained a severe scalp wound. Dr. Geo. T. Rankin was required to make several stitches in closing the wound.

**HANGING On Action of Law-makers.****The Making of a Great Industry.****Interesting Situation in Canadian Copper Affairs.**

It seems to be a pretty well understood fact at this time that the fate of the Nickel Copper company, of Hamilton, rests pretty much with whatever action the Dominion government sees fit to take in reference to Hon. John Charlton's plea, made in the House yesterday, for an export duty on nickel, says the Hamilton, Ont., Spectator, of April 19. If the duty is enforced there is every prospect that the big works in East Hamilton will speedily become the center of the nickel industry of Canada, and the successful opponent of the big international nickel combination recently formed in the United States. On this account Hamilton people will be decidedly interested in the action of the government, which will mean either the making or the breaking of one of the biggest industries ever contemplated in the country.

For months past there have been doings, as the vulgarism expresses it, in the nickel world, and the culmination of these doings has been the recent combination of the Orford Smelting company, with headquarters at Bayonne, N. J.; the Canadian Copper Mining company, which owns a considerable amount of the Canadian nickel properties, and from which the Orford company gets its principal supply of ore and matte; the Nickel Corporation, of London, Eng., and for all practical purposes, the Nickel company of Paris, which controls the New Caledonia nickel deposit. All these are practically controlled by the United States Steel Corporation, through its president, Charles M. Schwab. In an explanation of the purposes of the combination it has been said that one of the first undertakings would be the development of the Orford Smelting works on a much larger scale, the works now employing 1,000 hands.

But when the combination secured the Canadian Copper company nickel holdings in Canada, it did not get all the nickel there was to be had in this country. There remain the properties of Dr. Mond and E. H. Clegg, and the Nickel Copper company, of Hamilton. This latter company, in which so many Hamiltonians are particularly interested, has spent between \$500,000 and \$600,000 on nickel properties, and has good reason to believe that its holdings are more valuable than those of the Canadian Copper company. Besides spending this amount on properties, the Hamilton company has sunk something like \$250,000 in its works

**For Pale Sickly Women****Zoa Phora Gives New Strength, Tingles the Nerves, Quickens the Blood and Brightens the Mind.****Puts the Bloom of Perfect Health on the Cheeks and Cures all Weaknesses of Women.****Send Name and Address for Large Free Trial Bottle.**

The name of Rev. Richard Penneley, M. D., brings recollections of a Christian life devoted unceasingly and uncompromisingly to good works.

REV. RICHARD PENNELEY, M. D.

He was universally loved and respected in life and deeply and sincerely mourned in death. To the pioneer women of Michigan and the great western prairie states the name of Dr. Penneley was one revered and loved. It was the need of a physician by the pioneers that brought the famous pioneer preacher to study medicine, and as he gained in his knowledge he strove to produce a remedy that would relieve the wretchedness, the misery and the frightful drudgery of female weakness when the physician was far away. In doing this he brought forth from his laboratory the now famous Zoa Phora—christened by the grateful women of the early days of western settlement—"Women's Friend." If you suffer from female weakness, leucorrhea, suppressed or painful menstruation, laceration, weak or lame back, disordered liver or stomach, sick kidneys, rheumatism, neuralgia, nervous headache or highly nervous condition of the body or mind, if your face is pale or your skin rough, your hair falling or you have any other of the many distressing maladies produced by female weakness you will find Zoa Phora the only true tonic. It revives and regulates the menses, revitalizes the nerves, tones up the stomach, brightens the eyes and restores the buoyancy of youthful health and happy disposition. In change of life, preparation for motherhood, or restoring health after childbirth Zoa Phora has no equal. "I was troubled with nervous headache for eight years," says Mrs. Frank P. Scott, Redman, Mo. "Several doctors had treated me but failed to cure. One bottle of Zoa Phora did more for me than all the doctors." Mrs. S. E. Cryle of Salda, Colo., says: "I cheerfully recommend Zoa Phora for all female weakness. Three bottles completely cured me of leucorrhea and dysmenorrhea." Get a dollar bottle at the nearest drug store, or send ten cents to cover postage to Zoa Phora Co., Kalamazoo, Mich., for a free trial bottle. It never fails to cure all diseases of women.

and development work in Hamilton, and it is this immense expenditure, with all its possibilities for the future, that the Dominion Government is now asked to protect for the benefit of Canada and Canadians.

What is interfering with the success of the Hamilton company at this time is a lack of capital, and this capital could be secured with the greatest ease were it not for the regulations in the United States regarding the importation of refined nickel or nickel oxide, amounting to about \$120 a ton, against this country. It is the belief of the Nickel-Copper company managers that the big American combination is waiting for them to sell out, owing to the disadvantages under which they are laboring through the United States duty. If there was a Canadian export duty on matte equal to the American import duty, the Hamilton men would be able at once to complete their enterprise and develop the nickel business on a larger scale.

**The Clouds Roll Away when you take****Wright's Celery Tea**

It makes nervous, depressed people, bright and cheerful, cures dyspepsia, headache, sleeplessness. It has all the medicinal properties of fresh celery combined with other curative agents. A most palatable beverage. 25c and 50c a box. At druggists or by mail.

**THE WRIGHT MEDICAL COMPANY, Columbus, Ohio.****A great melo-drama is "Kidnapped in New York." At the Grand Opera House, Saturday, matinee and evening. At popular prices.**

than ever before attempted in Canada. When it is mentioned that the amount paid for refining Canadian nickel in the United States is about two million dollars per year, it will be understood how important the refining industry is to this country.

The present trouble is that the English market is supplied at a pretty low rate, and the American market is held at a pretty high figure, so that Canadians are entirely shut out of that country; if it were otherwise the Hamilton men could get not only Canadian capital, but a large amount of English money, to be invested here, and the manufacture of nickel steel and nickel pig iron on a very large scale would be the immediate result of such a policy.

To show just how sure of immediate future development in the Nickel-Copper company's business the Hamilton men are, provided the government does what is right, it is explained that representatives of four or five of the largest English and European steel and armorplate makers have been in Hamilton during the past few months looking over the property. Their interest in it is easily explained. Owing to the American combination these concerns are now dependent for their supply of nickel on the United States Steel corporation, the International Nickel company, and they do not like the idea, as it may mean anything in the way of restrictions and commercial war. What they want is an independent source of supply, and in the Nickel-Copper company proposition, with its valuable holdings, they see just what they want, provided the government arranges things so that the Canadians can do business.

Few people have any idea of the already great extent of the nickel industry, which, if justice is done, will be practically controlled in Canada and by the Canadians and for this country's benefit. For refining nickel alone the Orford Copper company got last year \$2,000,000, and this would have been greatly increased this year if the amalgamation had not taken place. The production of nickel in the United States is about five tons per year. The Canadian output this year seems to be about twenty tons of nickel per day, along with the associated copper and other materials. The value refined is between \$7,000,000 and \$8,000,000 a year.

Canada has every right to any gain that can be made by the refining and manufacture of nickel, as she practically controls the situation, having a larger supply than all the rest of the world together. The new Caledonia company, although backed by the Rothschilds, has, it is claimed, an existence only by favor of the Canadian Copper company, now merged into the International Nickel company. Some years ago when there was opposition between the two companies, the French company, Le Nickel, of New Caledonia, was almost driven to the wall and its capital depreciated by three-quarters of its value. By the Canadian Copper company allowing it certain concessions it was enabled to do business, but from its own statements it was clearly proven that the company could not exist in opposition to Canada if the Canadians had the United States market or a free entry into it.

**HAS FRANCHISE.**

The Stark County Commissioners at Canton Tuesday granted a franchise to the Akron-Alliance Connecting Railway company to construct a trolley line between the two cities.

**MURDERER****Declared Sane After 18 Years.****He Will Stand Trial For Shooting His Partner.**

New York, April 24.—Claiming as his right under the constitution, trial by jury, for a murder committed nearly 18 years ago, Theodore Bung, once a wealthy druggist, has made before Judge Marean to the Supreme court in Brooklyn, so strong a plea for liberation from the state hospital for the insane, at Matteawan, N. Y., that the judge has declared him sane, and committed him to the warden at the tomb to await trial for which he asked. Bung, who says he has been sane for the last four years, was produced in court by Dr. H. E. Ellison, medical superintendent of the asylum, in answer to a writ of habeas corpus which Judge Marean had issued to lawyers who had taken sufficient interest in Bung to institute the proceedings in his behalf.

Bung became insane in 1884. He suffered from the delusion that a well known actress was trying to make him marry her and was following him from place to place. He was then 34 years old. Among Bung's friends was a druggist, whose name was Nockin. Bung became a victim of the idea that Nockin was in league with the actress, and shot him to death. Bung was held responsible for the murder and indicted but a sheriff's jury pronounced him insane. Since that time he has been confined in the asylum.

**Kodol Dyspepsia Cure**

People once thought that the only way to cure indigestion was to stop eating. The trouble with such treatment is, that to stop eating is to stop living. Kodol Dyspepsia Cure has changed the whole method of treating this complaint. It contains all the natural digestive fluids and digests all you eat without aid from the stomach, so you can eat all the good food you want and be cured of your trouble at the same time. "I have been troubled with indigestion and dyspepsia for several years and often sat down to eat but had to give it up after eating only two bites. I used two bottles of Kodol Dyspepsia Cure and am alright to-day. Can now eat anything I want." W. L. Easton, Audubon, Iowa.
